

PHYSICAL EXECUTION & SEALING GUIDE

This guide defines the correct physical execution procedure for sovereign documents.

Required Tools

- Black or blue archival-quality pen
- Official embossed seal
- Printed documents on 24–28 lb paper
- Flat surface, no stapling before sealing

Execution Order

1. Print documents in final canonical order
2. Sign all signature lines using wet ink
3. Apply embossed seal in designated area
4. If notarized, execute notarization last
5. Allow documents to rest flat for 24 hours

Storage Rules

- Do not laminate sealed pages
- Store flat in binder or archival sleeve
- Maintain two physical copies only
